### 700 ACCESS TO STUDENT RECORDS

#### 700.1 – School Policies and Procedures in Accordance with FERPA

*(updated 2013)*

This statement is issued by Smith College School for Social Work in accordance with the United States Family Educational Rights and Privacy Act of 1974 (FERPA), as amended. The purpose of the act is to give students and former students access to their official records at the college, to provide an opportunity to correct inaccurate or misleading statements and to ensure that records are not released to unauthorized persons without the consent of the student.

According to the terms of the act, access may be provided to administrative officers and members of the resident, adjunct and clinical faculty who have legitimate interest; to certain specified agents of the government for the purposes of enforcement and study; to military personnel for recruitment purposes; and to other educational agents and institutions in connection with applications for admission and requests for financial aid. All authorized persons outside the college who request access will be required to file a written, signed statement of purpose; this statement will be kept on file and will be made available for inspection only to the student upon request.

Transcripts or information concerning student records will be released to other persons outside the college only with the written consent of the student or upon subpoena, in which case the student will be notified. The act stipulates that the student's written consent indicates which records are to be released, the reasons for such release and to whom the copies are to be released. A copy of the material to be released may be requested by the student.

Certain information, designated as “directory information,” may be released without consent. At Smith College, this information includes the following: name, home address (while in college), college address and telephone, email address, dates of attendance, major, degrees and awards, pictures, extracurricular activities (if known), previously attended institutions and pictures. You may withhold the release of this information by completing the appropriate form available annually at Central Check-In or in the SSW Registrar’s Office in Lilly Hall. Written authorization to withhold directory information must be made each academic year and must be submitted within five days of the start of the summer academic session in order to ensure non-disclosure in printed materials.

Students’ official records include records, files, documents and other materials containing information directly related to a student that are maintained by the college. They do not include notes kept by instructors, advisers, administrative personnel or deans for their own use and available to them only; such notes are maintained by individual administrators and are destroyed when no longer relevant or useful.

In communications with parents, we will assume that most students are not dependents. The School for Social Work will respect the privacy of the student and not disclose information from student education records without the prior consent of the student. At the request of the student, such information will be provided to parents and guardians.
